# *Taking care of staffing*

*If the candidate YOU are looking for is out there,  
WE will find them.*

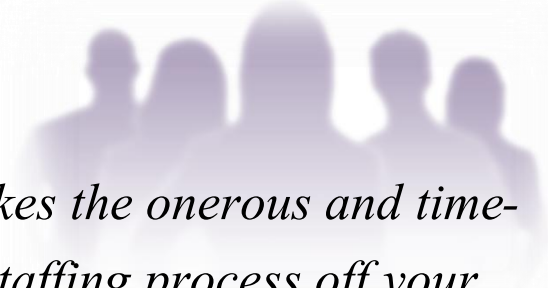

## *Who are Recruitment Boutique?*

*The Recruitment Boutique is a search & selection company that specialises in managing recruitment campaigns.*

## *How can we help you?*

*Our researchers are experienced in recruiting for roles across the commercial & industrial spectrum. From retail to engineering, we source candidates at all levels of seniority and experience.*

*Recruitment boutique takes the onerous and time-consuming parts of the staffing process off your hands. Our expertise and access to hundreds of thousands of potential candidates allows us to attract suitable individuals who are interested in your vacancy.*

## *How does the boutique process work?*

*We search a wide range of online databases and apply professional matching techniques to identify candidates whose experience, qualifications and personal profile meet your needs. Our familiarity with these databases enables us to target the most relevant candidates for each role.*

*We contact each potential candidate via email with a follow up SMS to confirm that they are available and interested in your vacancy. Once they have confirmed that they are interested we upload their CV into your client area.*

*At the same time we also advertise your post on popular online job boards. Each response is validated applying the same stringent CV matching methodology to handle the responses.*

monster

*We run each campaign for 28 days and regularly search the job boards and re-advertise the vacancy during this period to attract new potential candidates. During this period there is the facility in your client area where you can leave our researchers comments about the candidates, which we then use to refine the search.*

 CVLibrary  
Where the Jobs Find You

*All you now have to do is contact the candidates that you think are best suited to fill the vacancy and arrange interviews.*

*Another great feature of our system is that we do not charge for each candidate that you hire for that position but for managing the process.*

**Recruit entire teams for a single fee!**

*The new bespoke feature is for those clients who feel that they would be interested in talking directly to potential candidates whom have not actually applied for the position but may have the relevant skills.*

*Our team of researchers will search social media sites for individuals with the correct profile and place these profiles in your client area along with the contact details they find allowing you to approach them to gauge their interest.*

If YOUR ideal candidate is out there,  
WE will find them.
